

Dear FCC Commissioners & Staff:

I am writing in regard to the proposed limits on broadband providers. I am absolutely outraged that such plans even exist in this country! freedom and independence of people are not enhanced by limiting their choices to what's profitable to few. I come from a former eastern block country and I can't believe how much lip service is paid to independence in this country but how limited it really is! Leave things alone, please and leave my choices in my hands. Thank you . sincerely Ola Gordinier.

Sincerely,

Ola Gordinier
